

SO Protein Primer

MATERIAL SAFETY DATA SHEET

SECTION 1: PRODUCT IDENTIFICATION

COMPANY: Simply Organic Gel Nails, LLC
BUSINESS PHONE & FAX NUMBER: Phone: 1-866-681-3737 Fax: 435-767-0582
CAS NAME & NUMBER: Chemical Abstract Service Name: Not applicable Number: Not applicable

SECTION 2: COMPOSITION INFORMATION

COMPONENT IDENTIFICATION:	% BY VOLUME	% BY WEIGHT	CAS NUMBER
Proprietary Solvent Blend	> 55.0 %	> 65.0%	N/A
Aliphatic urethane diacrylate	> 15 %	> 17.0 %	EC Substance classification XI R36/38, R43
Methacryloxypropyltrimethoxysilane	> 0.5 %	> 0.5 %	CAS 2530-85-0
Dibutyl-tin-dilaurate	< 0.05 %	< 0.05 %	CAS 77-58-7

SECTION 3: HAZARD DATA

This product is not listed nor is regulated under OSHA Hazardous Chemicals, Massachusetts Substance list or New Jersey Workplace Hazardous Substance List.

HMIS HAZARD RATING: Health - 1 Flammability - 1 Chemical Reactivity - 1

OSHA PERMISSIBLE EXPOSURE LIMIT (PEL): Not Established

ACGIH Threshold limit Value (TLV) Not Established

SARA HAZARD NOTIFICATION: SARA Title III Rule 40 CFR Not Established
Section 313 Hazardous Chemicals: Not Established

OSHA HAZCOM STANDARD: Not Established
DOT HAZARD CLASS/I.D. NO.: Not Established / Not Regulated
DOT PROPER SHIPPING NAME: SO Protein Primer

SECTION 4: FIRE PROTECTION DATA

FLASH POINT: Not Applicable
FLAMMABLE LIMITS: Lower: 12.0 Upper: 19.0

EXTINGUISHING MEDIA: For small fires, use dry chemical carbon dioxide, water spray or alcohol-resistant foam. For large fires, use water spray, fog, or alcohol-resistant foam.

SPECIAL FIRE FIGHTING PROCEDURES: Fire fighter and others exposed to any product of combustion should wear full protective clothing including self-contained breathing apparatus.

SO Protein Primer

SECTION 5: OCCUPATIONAL CONTROL AND FIRST AID INFORMATION

HANDLE THIS MATERIAL IN ACCORDANCE WITH GOOD HYGIENE AND SAFETY PRACTICES. THIS INCLUDES AVOIDING EXPOSURE TO EYES AND UNNECESSARY EXPOSURE TO SKIN AND CLOTHING. REMOVE THIS MATERIAL IMMEDIATELY IF IT COMES IN CONTACT WITH EYES, SKIN OR CLOTHING. KEEP OUT OF THE REACH OF CHILDREN.

SKIN CONTACT: Skin irritation concern from contact with this product is minimal to none under normal usage conditions. Prolonged contact with skin may cause localized irritation due to lipid reduction in skin. As part of good hygiene practice, contact with the skin should be minimized. Wash hands and skin contact areas with soap and water after handling. If redness or irritation of the skin occurs from contact with skin, consult a physician.

EYE CONTACT: Product does not present a toxicity concern. Contact with eyes can cause severe irritation, redness and discomfort, especially in the first few minutes. Contact of this material with the eyes should always be avoided. In the event of contact with eyes first inspect victim for contact lenses and remove if present. Flush eyes with water or normal saline solution repeatedly for 15-20 minutes. Obtain medical attention immediately. Irritation, redness, minor discomfort and possibly slightly blurred vision may persist for 24-36 hours.

INHALATION: The material generates a characteristic odor. No harmful health effects are expected from ambient temperature evaporation under normal usage conditions. As part of good hygiene practice, smelling or inhalation of material should be minimized or avoided. The material does not present a respiratory concern under normal usage conditions. If dizziness or lightheadedness occurs, leave the area and take deep breaths of fresh air.

INGESTION: No harmful effects due to ingestion of this material in small amounts are known from available information. Ingestion may cause abdominal discomfort. Avoid ingestion of the material. In the event the material is swallowed, drink two glasses of water. Induce vomiting. If discomfort continues, obtain medical attention.

OTHER CONCERNS: High levels of exposure from ingestion or inhalation may produce narcotic symptoms and headaches.

SECTION 6: PHYSICAL AND CHEMICAL PROPERTIES

APPEARANCE:	Colorless, highly volatile liquid.
ODOR:	Sweetish.
VAPOR DENSITY:	2.9 (Air=1)
VAPOR PRESSURE:	350mm Hg
EVAPORATION RATE:	27.5 (n-Butyl Acetate =1)
BOILING POINT:	104° F
pH OF MATERIAL:	7.0

SECTION 7: STABILITY, STORAGE & REACTIVITY

STABILITY: Stable in sealed container at ambient temperatures.

CONDITIONS TO AVOID: Do not expose to heat, sparks or flames. Do not expose material to temperatures above 120°F. Store in cool dry area at room temperature. Do not mix this product with other chemicals, it may form explosive and hazardous compounds when mixed with hydrogen peroxides, acid and other chemicals.

SECTION 8: SPILL, LEAK & DISPOSAL INFORMATION

WASTE DISPOSAL: When discarded, this product is not a "hazardous waste" as defined in the *Resource Conservation and Recovery Act* (RCRA), 40 CFR 261, "Identification and Listing of Hazardous Waste." Dispose of this product in an approved landfill in accordance with applicable local, state and federal laws and regulations.

SPILLAGE/LEAKS: Large spills of 1 liter or more should be confined on a suitable medium such as sawdust, clay, vermiculite or other suitable noncombustible, absorbent material and disposed of as recommended above.
